EDUCATION

- BEng (Hons) in Software Engineering - LMU (upper second class honours)
- HND in Software Engineering - Pearson Level 5
- Diploma in IT
- Diploma in English

TECHNICAL SKILLS

- Languages: JavaScript, HTML5, CSS3, PHP, SQL
- Frontend: React.js, Tailwind CSS, Bootstrap, WordPress (Elementor)
- Backend: Node.js, Express.js
- Databases: Firebase Firestore, MySQL
- Tools & Platforms: Git & GitHub, Figma, Visual Studio Code, Postman, Firebase Authentication, Google Maps API, Cloudinary
- Concepts: Responsive Web Design, UI/UX Design, Agile Methodology, RESTful APIs

PROFILE

Software Engineering graduate with a BEng (Hons) degree and practical experience in web development through an internship and academic projects. Proficient in HTML, CSS, JavaScript, PHP, MySQL, and WordPress, with experience in website development, database management, responsive user interfaces, and web-based application development. Possesses a sound understanding of software development principles, problem-solving, debugging, and application functionality. Demonstrates adaptability, analytical thinking, teamwork, and a commitment to developing reliable and user-focused software solutions.

CAREER OBJECTIVE

To secure a Software Engineer or Junior Software Developer position where I can apply my technical knowledge to develop, test, maintain, and improve software applications. Aiming to contribute to the software development lifecycle, implement effective coding practices, optimize application performance, and develop scalable, efficient, and user-focused software solutions while advancing my expertise in modern programming languages, frameworks, and development technologies.

PROJECTS

GoalLink – Football Networking & Recruitment Platform

- Developed a full-stack platform connecting football players, coaches, clubs, and scouts.
- Implemented user authentication, player profiles, opportunity listings, and location-based features.
- Technologies: React.js, Tailwind CSS, Node.js, Express.js, Firebase, Google Maps API, Cloudinary.

BookNest – Book Reselling Platform

- Developed a web application for buying and selling books with user authentication, book listings, order management, and dynamic pricing.
- Technologies: HTML, CSS, JavaScript, PHP, MySQL.

Photography Portfolio Website

- Designed and developed a responsive portfolio website with image galleries and contact functionality.
- Technologies: HTML, CSS, JavaScript.

E-commerce UI/UX Design

- Designed a user-friendly e-commerce interface with intuitive navigation and usability-focused layouts.
- Tool: Figma.

Grifindo Toy Company – Employee Management System

- Developed an employee management system to organize employee records, attendance, and performance data.
- Technologies: Visual Studio, SQL Server Management Studio.
